SUMMARY

Practiced Front End Web Developer specializing in HTML/CSS, JavaScript, and React. Skilled in creating intuitive, user-friendly websites and applications.

TECHNICAL SKILL

• **Frontend -** HTML, CSS, JavaScript, React Js, Responsive Web Design

Experience

- **JavaScript, React Js (2024-Present) -**

   After I Focusing on HTML And CSS, I Started Learning JavaScript For Focusing On Logical Websites. And I Learned JavaScript in Around 3-4 Month. After Learned JS I Started Building Page Like Calculator And To-Do-List etc. And Then I Was Interesting In Frontend So I Started Learning React Js And I Learned This In 3 Month. After I Was Building Some Logical And Creative Sites With API's Like Image Searching App etc.

- **HTML, CSS(2023) -**

   When I know What Is Web Development, I Started Learning HTML From Youtube, And For Focusing On Design I Started Learning CSS. And After I Learned Both Of Them I Started Building Simple Project Like Login Page And Landing Page etc.

Projects

[LINK] MrClicker - An Image Searching React App

 Teck Stack : HTML, CSS, JavaScript, Tailwind CSS, ReactJs, etc
